

# Blend Phonics Decoding Cards

Copyright © 2008, 2017 by Donald L. Potter  
[www.donpotter.net](http://www.donpotter.net)

## Note from Internet Publisher: Donald L. Potter

October 10, 2008

These *Blend Phonics Decoding Cards* are designed to facilitate student-decoding practice. The idea is to carefully practice decoding words from left to right until the decoding process is fully automated. When decoding is fully automated, student will have more attention to allocate to comprehension and reading pleasure. I run my finger rapidly across the bottom of the card from letter to letter to encourage good left to right Blend Phonics directionality.

These cards are **not** intended to be used as whole-word memorization flashcards. Faster decoding speeds should not be confused with sight-word memorization, which should be avoided at all costs because it creates whole-word dyslexia (guessing from word configuration and context).

Be sure to teach *Mr. Potter's Secret of Reading*: "**Look at all the letters the right way, and no guessing.**"

These cards are based on Hazel Loring's 1980 *Reading Made Easy with Blend Phonics for First Grade*. The program and many valuable supplements are available free of charge from [www.donpotter.net](http://www.donpotter.net). Cards finished, 11/17/08. Revised 6/25/15. Revised May 4, 2017

The cards are numbered consecutively by Units: Card 1-1: Unit 1, Card 1.

## Suggestions for Classroom Use

The children love to play games with the cards. They love to decode the words on the cards and then create their own sentence using the word. Place several cards on the table and ask them to point to a word as you read it. Have them hand you a card as you say it.

Words they tend to confuse can be selected for discrimination drills. Show them two cards then hid the cards behind your back and present one at random to see if they can tell the difference.

Advanced students can tutor their peers.

It is good to have the students periodically review the cards until they can decode the words rapidly. Rapid decoding is the wide open door to reading enjoyment and superior comprehension.
