## Internet Publisher Note: Donald L. Potter

December 9, 2008

This *Blend Phonics Reader Lite* edition of my *Blend Phonics Reader* is designed to be a **shorter version** for younger children who have not received whole-word instruction and have not developed artificially induced whole-word dyslexia. *Blend Phonics Lite* has 1,450 words, whereas the program for older students has around 2,080.

Thanks to my tutoring student Ric Hale, a 10 year old, fourth grader at the Odessa Christian School. He helped me edit both editions of the present work.

This *Blend Phonics Reader Lite* is a complete course in phonics especially for kindergarten and first grade, but applicable to students of any age who need to improve their reading with basic phonics.

Visit [www.donpotter.net](http://www.donpotter.net) for more information on *Blend Phonics* and reading. Also visit [www.blendphonics.org](http://www.blendphonics.org).

The author grants permission for free, unaltered distribution of his *Blend Phonics Reader Lite*.

The follow-up to *Blend Phonics Reader Lite* is *Blend Phonics Polysyllables*, which will take students to the next level of reading ability.

Note: *Blend Phonics Reader Lite* organizes the lessons in more detail than the *Blend Phonics Reader: Standard Edition*. This makes it especially easy to use with younger students.

Arial Sans Serif is used because sans serif font is easier for younger students read. The vowels were colored red at the recommendation of my tutoring students.

Last update, 1/20/10.
